Bootstrap

- Introduction
- Break Points
- Grid System
- Common Utility Classes (font, text, color, spacing, display)
- Custom Components (navbar, cards, modals, alerts, accordians, carousels, bu
  forms etc.)
- Footers (https://geeksui.codescandy.com/geeks/docs/footer-snippet.html)
- Practice Assignments

Introduction

- Most Popular Frontend framework
- For building responsive sites
- Bootstrap, originally named Twitter Blueprint, was developed by Mark Otto and Jacob Thornton at Twitter as a framework to encourage consistency across internal tools.
- Can use bootstrap in two ways: Download it or using CDN link
- Reference : https://getbootstrap.com/docs/5.3/getting-started/introduction/

Break Points

Breakpoint	Class infix	Dimensions
Extra small	None	<576px
Small	sm	≥576px
Medium	md	≥768px
Large	lg	≥992px
Extra large	xl	≥1200px
Extra extra large	xxl	≥1400px

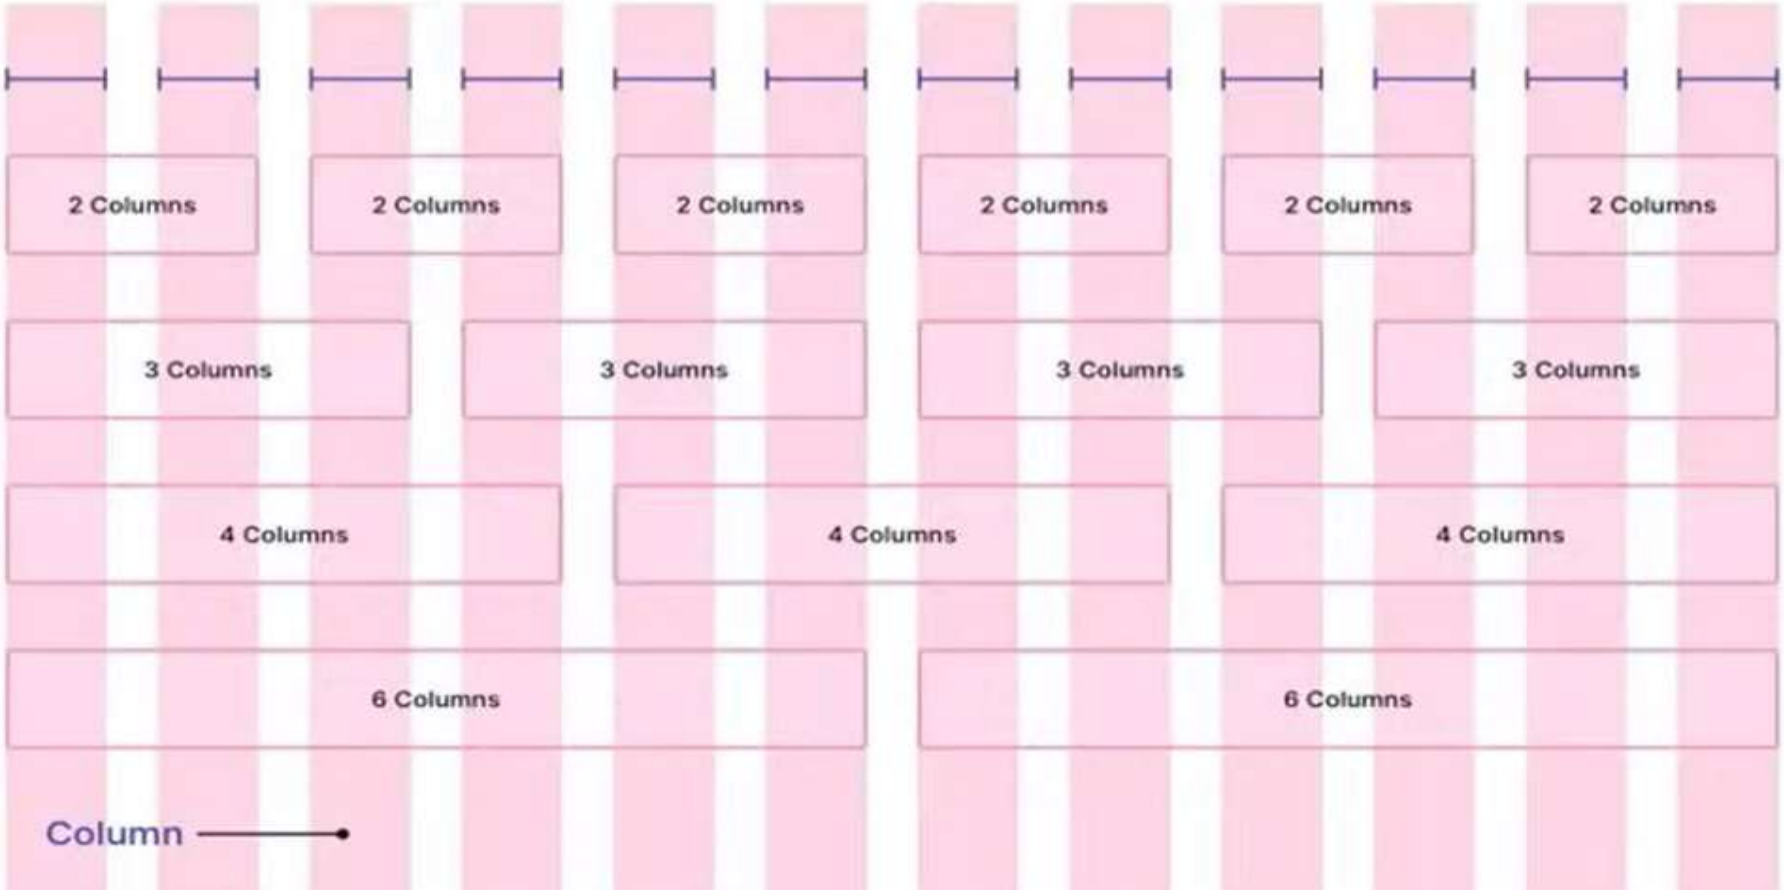

Container

	Extra small <576px	Small ≥576px	Medium ≥768px	Large ≥992px	X-Large ≥1200px
`.container`	100%	540px	720px	960px	1140px
`.container-sm`	100%	540px	720px	960px	1140px
`.container-md`	100%	100%	720px	960px	1140px
`.container-lg`	100%	100%	100%	960px	1140px
`.container-xl`	100%	100%	100%	100%	1140px
`.container-xxl`	100%	100%	100%	100%	100%
`.container-fluid`	100%	100%	100%	100%	100%

Responsive Containers

```
<div class="container-sm">100% wide until small breakpoint</div>
<div class="container-md">100% wide until medium breakpoint</div>
<div class="container-lg">100% wide until large breakpoint</div>
<div class="container-xl">100% wide until extra large breakpoint</div
<div class="container-xxl">100% wide until extra extra large breakpoi
```

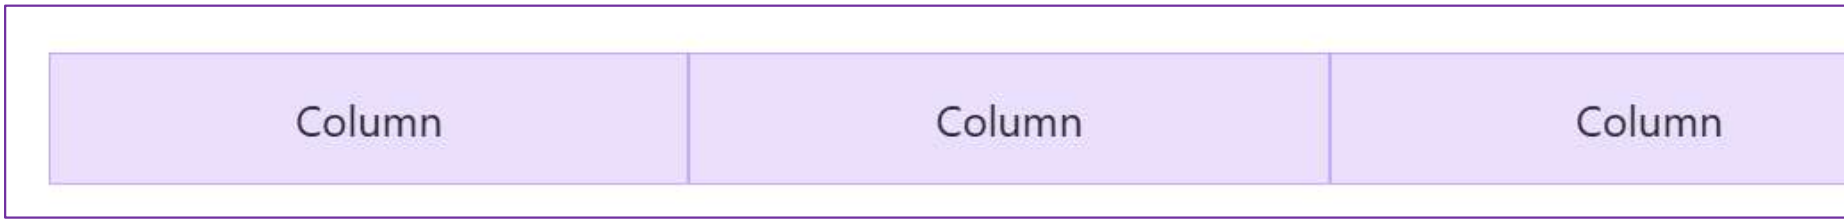

Grid System (responsiveness)

Grid System

Bootstrap's grid system uses a series of containers, rows, and columns to layout and align conte
with flexbox and is fully responsive

```
<div class="container text-center">
  <div class="row">
    <div class="col">
      Column
    </div>
    <div class="col">
      Column
    </div>
    <div class="col">
      Column
    </div>
  </div>
</div>
```

Grid Options

- Extra small (xs)
- Small (sm)
- Medium (md)
- Large (lg)
- Extra large (xl)
- Extra extra large (xxl)

Eg: 1

equal width

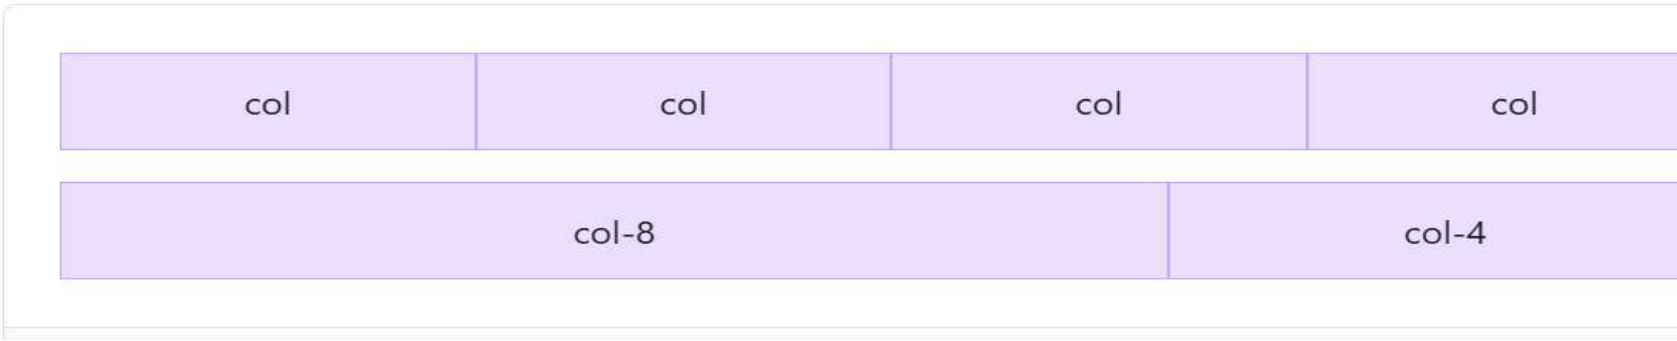

Eg: 2

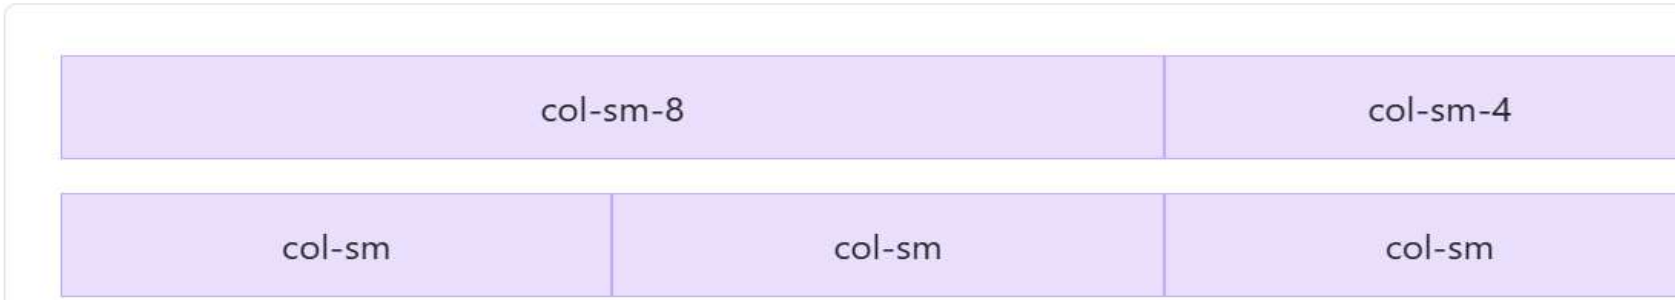

variable width content

All Breakpoints

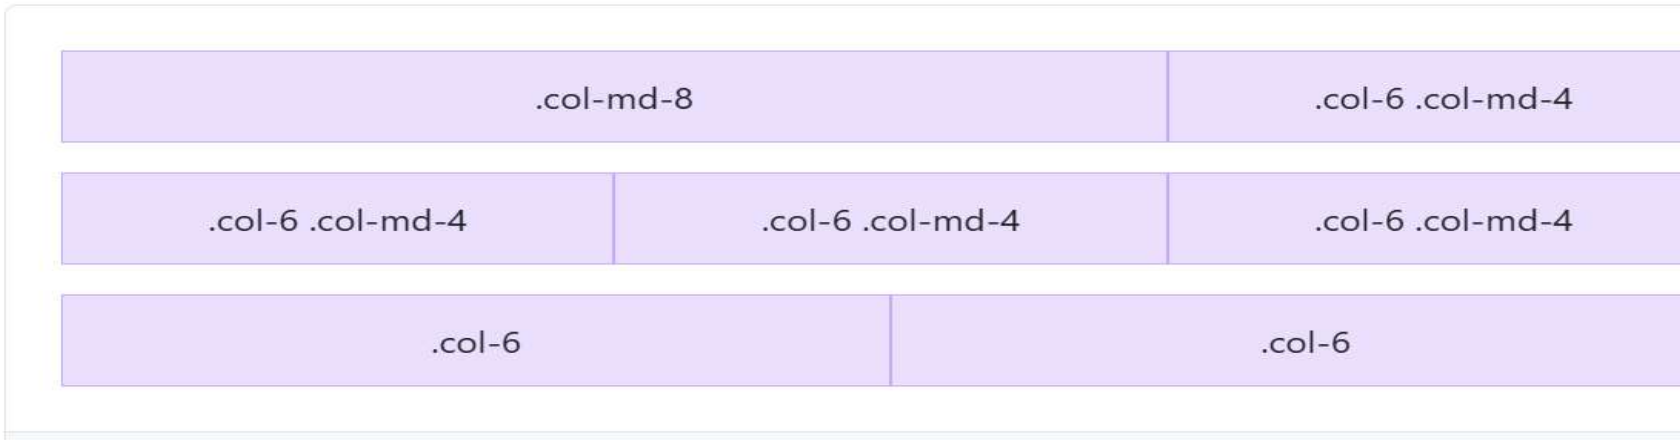

Task-1

Task-2

Task-3

Rows Columns

Eg: 1

Column	Column
Column	Column

```
<div class="contai
 <div class="row r
  <div class="col">
  <div class="col">
  <div class="col">
  <div class="col">
 </div>
</div>
```

Eg: 2

Column	Column	Column	Column

```
<div class="contai
 <div class="row r
  <div class="col">
  <div class="col">
  <div class="col">
  <div class="col">
 </div>
</div>
```

for multi break points:

eg: class = “row row-cols-1 row-cols-sm-2 row-cols-md-4”

Task-4

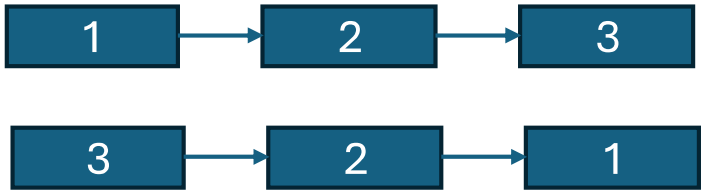

Create a multi columns using responsive bootstrap grid following conditions:

- Take full width for small devices
- Devide into 2 columns for above small and below medium devices
- Devide into 3 columns for above medium and large devices
- Devide into 4 columns for large and below extra large devices

Ordering

Third flex item | Second flex item | First flex item

```
<div class="d-flex">
 <div class="order-3 p-2">1</div>
 <div class="order-2 p-2">2</div>
 <div class="order-1 p-2">3 </div>
</div>
```

Responsive variations also exist for order.

- .order-0
- .order-5
- .order-sm-0
- .order-md-1

Colors

[text/bg]-opacity-[1-100]

Text

```
<p class="text-start">Start aligned text on all viewport sizes.</p>
<p class="text-center">Center aligned text on all viewport sizes.</p>
<p class="text-end">End aligned text on all viewport sizes.</p>
<div class="badge text-bg-primary text-wrap" style="width: 6rem;"> This text should wrap. </

<p class="text-lowercase">Lowercased text.</p>
<p class="text-uppercase">UPPERCASE.</p>
<p class="text-capitalize">CapiTaliZed text.</p>

<p class="fs-1">.fs-1 text</p>
<p class="fs-6">.fs-6 text</p>

<p class="fw-bold">Bold text.</p>
<p class="fw-light">Light text.</p>
<p class="fw-italic">Italic text.</p>

<p class="text-decoration-line-through">This text has a line going through it.</p>
<a href="#" class="text-decoration-none">This link has its text decoration removed</a>
```

Width Height Spacing

```
<div class="vh-100 bg-info">
 <div class="h-50 m-1">Height 25% Margin 1</div>
 <div class="w-25 p-3">Width 25% Padding 3</div>
</div>
```

Custom Components

navbar, cards, modals, alerts, accordians, carousels, buttons, forms

Assignment

Create an e-commerce responsive website using bootstrap classes and components that will have header navbar footer, landing page, contact and about us page, image slider, pr cards, contact form etc.

you are free to use layout and color combinations of your choice

Eg: https://mohdshavezz.github.io/night
